There are lots of different ways to think about how to choose a name based on the responses to the online survey.

Looking at the top three choices of everyone who responded to the online survey...

Person A	Person B	Person C	Person D	Person E	Person F	Person G	Person H	Person I
CPS	TIPS	Continue Search	MELT	MELT	ANLC	CAMI	Continue Search	MELT
CAMI	CAMI	TIPS	ANLC	TIPS	EPSAN	AEMCTC	CIAN	TIPS
AMSC	MPSC	MELT	MPSC	CPS	CIAN	AMLC	MELT	ANLC

If we assign 3 points for each first place vote, two points for each 2nd place vote and 1 point for each 3rd place vote, the totals would be:

1. **MELT – 11 POINTS**
2. TIPS – 9 POINTS
3. CAMI – 7 POINTS
4. ANLC – 6 POINTS
5. Continue Search – 6 POINTS
6. CPS – 4 POINTS
7. CIAN – 3 POINTS
8. MPSC – 2 POINTS
9. EPSAN – 2 POINTS
10. AEMCTC – 2 POINTS
11. AMLC – 1 POINT
12. AMSC – 1 POINT

Most occurrences in the top three:
MELT with 5 (TIPS was 2nd with 4)

Most occurrences in the number 1 slot:
MELT with 3 ("Continue Search" was 2nd with 2)

If we factor in people's level of happiness with the choice of names, everyone gave a "shrug", except for Persons D and E, who gave a "Yay!" and both choose **MELT** as their number 1 pick.

Looking at the order of preferences of all 12 choices, for all 9 respondents: Total (lower is better), Average, Mode and Range...
